

Legal Services

Quarterbacking Solutions - Some companies prefer to deal with a lawyer who can not only represent their legal issues but can quickly grasp business issues and provide seasoned practical advice as to the legal "climate" within the Canadian federal or provincial jurisdictions. We believe in this approach and rely upon our long-standing network of outstanding legal and multidisciplinary professionals in assisting us to quarterback our clients' particular legal and business needs. Sometimes what is needed is an overall solution to a problem or set of problems, rather than an unending myriad of litigation and legalese.

Areas of Practice

Real Estate Law
Business Law
